

8th November 2019

Dear Parents and Carers,

Single Use Plastics

At Parkland we want to educate our pupils for the future. Single use plastics are a real problem and Parkland would like to reduce them in school.

The school council will be researching the extent of the problem by collecting all the single use plastics from lunch boxes one lunchtime next week. These will then be used to consider ways forward to reduce our single use plastics.

We will share with you what our actions are and hope you can become involved in cutting down on single use plastics as we educate our pupils in this important topic.

We thank you for your continued support.

Yours sincerely

Mrs S Bishop
Headteacher
