Year 3 – Forces in Science Day

Friday 11<sup>th</sup> June 2021

Dear Parents and Carers,

This half term, one of Year 3's topic is "Mighty Metals", this will involve looking at Forces in Science. As part of the Forces learning journey, we would like the children to bring in either a bicycle or a scooter to school (if possible) on **Friday 11th June**.

We will be using the bike/scooter in the Science lesson, as we explore forces that "push and pull" to create movement. *If you are unable to bring in a bike/scooter, it is not a problem.*

The bicycles and scooters will be stored during the day in the open Quad area, outside Mr Rowell and Mrs Voigt's classrooms. The scooters and bicycles will only be used as part of a lesson and will not be accessed by the children at either breaktime or lunchtime.

Thank you for your support.

Kind regards,

Mr Rowell, Mrs Raymond & Mrs Voigt  
The Year 3 Team
